

ITEM FOR CONSIDERATION

TOPIC: 2021-2022 Appleton Community 4K School Calendar

BACKGROUND INFORMATION: Appleton Community 4K has worked with District Leadership Team to develop the Appleton Community 4K modified calendar that represents the DPI required 437 hours of instruction per year.

INSTRUCTIONAL IMPACT: The Appleton Community 4K calendar will support consistent educational practices across our 4K sites through full day professional development sessions. Because of the am/pm structure of Appleton Community 4K, as well as all of the district's early childhood programs, a full day instead of two half days has been recommend to balance the impact on students in each session. In addition, this calendar allows for the morning and afternoon session to be the same length.

FISCAL NOTE: \$16,200 will be budgeted as part of the Appleton Community 4K budget to provide substitutes on professional development days in the community sites since students are still present as part of wrap-around care.

ADMINISTRATIVE RECOMMENDATION: Approval as submitted.
