Second.

Aldersperson Katie Van Zeeland (District 5) 09:08

We have a motion to approve and a second. Any questions on this item or discussion? Alder Doran.

Aldersperson Chad Doran (District 15) 09:15

Thank you. Just wanted some clarification, I guess, as to why the area is signed no parking right now. Do we—I don't know what the history there is, I guess.

Eric Lom (City Traffic Engineer) 09:28

So when the Expo Center was built, one of the things that we needed to do because their loading bays face Elm Street is we need to run all the what we call the turning templates for—in order to make sure there's enough room for semis to get oriented and get back in and then get out. So basically, when you superimpose all those different turns for all the different loading bays, there was nothing left of Elm Street—except that when we went back and looked at it, there was one little spot that we could stick these two CSO vans in there that did not conflict. So I think at the time we were—I think we said well about 95% of it is just a no go and everybody just treated it as like one, the whole block the same. We found a little nook in there where we could squeeze this in.

Aldersperson Chad Doran (District 15) 10:18

Okay. So it's not it's not impacting any reasons that that would have been or previously had been no parking?

Eric Lom (City Traffic Engineer) 10:25

Correct.

Aldersperson Chad Doran (District 15) 10:25

Okay, thank you.

Aldersperson Katie Van Zeeland (District 5) 10:27

Any other questions or discussion? With that we'll vote. All those in favor say aye. Aye. Any opposed? Motion passes five zero.
