Thank you, Chair. I would like to commend director Gazza in absentia and Deputy Director Flick for the information that I received in this regard, when I questioned it. I'm still trepidatious about this particular item, just because we're looking at a very large price tag here, but as we discussed just prior to this meeting, these modules would be able to be moved should the employees who will be using them need to move to a different location within the city. That said, I'm concerned about future, if this begins to set a precedent. So, I would just like to make note of that. Thank you.

Mayor Jake Woodford 13:19

Any further discussion? Hearing none, we have a motion and a second to approve. Please cast your votes. Alder Croatt votes, aye. The motion passes 14 to zero. The item has been approved.
